

DESCRIPTION

Our optical fibre pigtails are short lengths of fibre optic cable that have a factory-terminated connector on one end and a bare fibre on the other. They are primarily used to terminate your already installed fibre cables to network devices or patch panels by splicing the exposed end onto another fibre. This makes it easier for technicians to install as they can cut the pigtails to the desired length and splice after installation. This provides a reliable, low-loss connection point, allowing seamless integration into a network.

- PRODUCT DETAILS**
- Type : OS2, simplex
 - Tight Buffered Coating : 900um
 - Low smoke zero halogen (LSZH)
 - Flexible strain relief moulded collar
 - Conforms to ISO/IEC, TIA/EIA and ITU standards
 - Lifetime warranty

- TECHNICAL SPECIFICATIONS**
- Connector : LC Male
 - Operating temperature: -20 °C ~ 40 °C
 - Strength: Aramid
 - Fire specification: IEC 60332-1
 - 2m
 - Yellow

PACKAGING SPECIFICATIONS

Box Quantity: 1
Pack Type: Bag
Dimensions: 190(W) x 220(H) x 0.2(D)mm
Material: Plastic
Weight: 0.06
Gross Weight: 3.5750kg
Country: PR China
Barcode: 5035624048621
