

30m VGA Monitor Connector Cable - Male to Male - Fully Wired + Ferrite Cores

Brand: **connektgear**
Code: 26-0300MM
Box Qty: 3

Why do you need it?

You require a connection from your VGA source to your display device that features a VGA socket with a cable that will give you an accurate display without fuzzy images.

What does it do?

VGA (Video Graphics Array) is an analogue technology that carries a high definition video signal between a PC and a monitor or TV. This cable is focused on the quality of your viewing experience, so that you can get the most out of your devices.

Product Details

- Full HD display 1920 x 1080 pixels resolution
- Coaxial cores create a higher grade cable helping eliminate ghosting and fuzzy images
